Even if we were to have a dreary winter, we have some beautiful basic colors to cheer us up, deep blue, forest green, berries and purples.

These colors are gorgeous on most skin tones and offer so many options.

I have included some of my favorite items from amazon.com in forest green. It can be paired with

= White - beige - camel

= Pale or icy blue

= Metallic accents

= Burgundy - berries - soft pinks - fuschia - rose

= Yellow - peach -

= Other shades of green + turquoise

and let's not forget the basic animal print.
